

Data Science Project 15 – Data Dictionary

tobacco_frequency.csv

Full dataset and codebook may be downloaded [*here*](#)

Data Type: Comma-separated values (CSV), 114,108 observations of 3 variables.

Description: Responses to the 2019 National Youth Tobacco Survey regarding frequency of tobacco use.

Variables:

- *ID*: A unique student ID number.
- *tobacco_type*: A type of tobacco product.
- *response*: A coded variable describing how many days out of the past 30 days a student has used a given tobacco product.

Value	Label
.N	Displayed, Not Answered
.S	Legitimate Skip
.Z	Not Displayed
00-30	0-30 days
